The Black Hole Planetarium

Dear Parents/Carers,

As you are aware, our topic this term is 'Moon Zoom'. To bring this topic to life, we have planned an exciting learning experience for the children. We have organised an afternoon in The Black Hole Planetarium. The children will enter the inflatable hemisphere and be immersed in scenes from Space. They will learn about Earth and Space, Light and Dark and the Moon Landing. The interactive presentations are made within the planetarium, using various projection devices and visual aids.

The Planetarium experience will take place for both classes on Tuesday 12th October. We are so excited to provide the children with such a unique learning experience, which we are sure they will remember for years to come. To support us in this experience, we are asking parents to make a contribution of £5.00. Please may we ask that payment is made by Friday 1st October 2021. Please make the payment online via school comms. If you are entitled to help towards school experiences, please see Sarah Russell at the school office.

Thank you for your continued support.

Year 1 team
